Objective

A graduate with a Bachelor's Degree in Computer Science from the university of Limpopo. Highly motivated, disciplined, and dedicated individual with a keen interest in computer engineering and technology systems. I am eager to contribute to innovative solutions and further develop my technical and analytical skills through practical learning in the engineering environment.

Experience

- **MiWay Insurance Limited**   2023 - Current
  Junior Developer
  - Focusing on both front-end and back-end. The technologies I work with include Vue.js, Symphony, TypeScript, JavaScript, PHP and Bootstrap Vue and other technologies.
  - Worked with project management and solution architects to scope and estimate projects.
  - Collaborated on a cross-functional team to develop and deploy a web-based application, ensuring delivery of features and bug fixes.
  - Utilized project management tools such as Jira for tracking progress, manage tasks, and facilitate effective communication within the team.

- **MiWay Insurance Limited**   2022 - 2023
  IT development intern
  - Focusing on both front-end and back-end. The technologies I work with include Vue.js, Symphony, TypeScript, JavaScript, PHP and Bootstrap Vue and other technologies.
  - Conducted manual testing using BrowserStack to ensure software quality and performance.
  - Assessed UX and UI designs for technical feasibility.
  - Documented code and created user guides.

Education

- **University Of Limpopo**   2021
  Bachelor of Science in Computer Science

Certifications

- Fundamentals of Javascript and DOM - Alison Academy
- Java bootcamp - GirlCode

Functional Skills

- Excellent numerical, verbal, and written communication skills.
- Applies critical thinking skill to assess complex situations and develop solutions.
- Collaborate effectively with team members, fostering a supportive environment.
- Pays attention to details, ensuring quality assurance in project tasks and documentation.
- Exhibit high motivation to proactively seek personal and professional growth opportunities.

Technical Skills

- **Languages**: JavaScript, Java, PHP, HTML5, CSS3
- **Frameworks & Tools**: Microsoft Office suite, Bitbucket, BrowserStack, Vue, Bootstrap, Vuetify, Jira
- **Version control**: Git, Github(branching, merging, pull requests)
- **Databases**: MySQL
- **Systems & Integration**: PLC programming
